

# Mitcham Hills Road Corridor upgrade – early works

- Russell Street, Main Road and Sheoak Road junction
- Shepherds Hill Road, Brighton Parade and Waite Street intersection

**The South Australian Government has committed \$20 million towards upgrading of the Russell Street, Main Road and Sheoak Road junction and the Shepherds Hill Road, Brighton Parade and Waite Street intersection, Blackwood.**

Site investigations, including geotechnical and service investigations, will be commencing shortly at various locations on and around the Russell Street, Main Road and Sheoak Road junctions and Shepherds Hill Road, Brighton Parade and Waite Street intersection.

These works will build on the investigation activities already undertaken and will help us better understand the existing site conditions.

## What to expect

In order to minimise the impact to road users and to ensure the works can be completed safely and efficiently, these **investigation activities will be undertaken both during the day and at night from Friday, 17 February 2023. These activities are expected to take approximately 4 weeks to complete.** Hours of work during the day are between 7am and 7pm Monday to Saturday. No day works will be undertaken on Sundays. Night works will be undertaken between 7pm and 6am, Sunday to Thursday. No works will be undertaken on Friday or Saturday nights.

Some noise disturbance can be expected at times while these works are completed, however the work will be managed to minimise disturbance to nearby residents and businesses as much as practically possible. This includes scheduling more intrusive works in the early evening.

Please take extra care when workers are on site. Observe speed limits, lane restrictions and traffic controllers when travelling through the area. Access to properties will be maintained throughout these works. No changes to public transport services are planned during these works.

Pedestrians and cyclists are advised to take care when travelling through the area. For safety reasons there may be some restricted access. Where required, signage will be in place to direct pedestrians and cyclists to alternative access and/or detours.

Initial service relocation works for the Russell Street, Main Road and Sheoak Road junction are planned to also start in late February 2023. These activities are expected to be complete in April 2023, weather permitting.

Works will include the relocation of telecommunications infrastructure, APA Gas works and SA Water main alterations. Individual service providers will advise separately of any potential interruptions to services during these works.

The Department appreciates your patience and cooperation whilst these important works are undertaken.
