

safer, greener and more active travel

Dear parent/caregiver

__/__/__

In preparation for our participation in **Way2Go Bike Ed** students have been learning how to identify a safe bicycle helmet. As part of our assessment we noticed the following concerns regarding the safety of your child's helmet.

Does not meet Australian Standard	
Outer shell has cracks, is peeling or has attachments that are not part of the original design	
Inner shell has cracks or chunks of foam missing	
Straps or buckle are not working properly	
Other	

For an explanation of how these features protect your child's head please read the **Way2Go** safe helmet factsheet we have provided.

✂.....

All students must wear a safe helmet whilst they participate in the **Way2Go Bike Ed** program. To help us plan for the safety of your child before the next session please choose from the options below and return to us within the next two days.

Student name: (print)

Class teacher:

- I will provide a safe helmet for my child before the next session begins
- I would like my child to borrow a helmet to participate in **Way2Go Bike Ed**.
