

# Gawler Rail Electrification Project

## Works Notification

As part of the Gawler Rail Electrification Project, the Department of Planning, Transport and Infrastructure (DPTI) advises that works will be undertaken adjacent the Gawler rail corridor in Kudla this weekend.

**Location:** Along Dalkeith Road, in the vicinity of the rail corridor (see map overleaf).

**When:** From 7am Saturday, 28 September, to 7am Monday, 30 September (weather permitting). There will be night works on Saturday, 28 September and Sunday, 29 September, from 8pm to 6am.

### Activities:

- Existing overhead power and communications cables that currently cross the rail corridor will be relocated to underground conduits.
- Installation of SA Power Networks poles on either side of rail corridor.
- Removal of redundant SA Power Networks poles.

### Traffic Management:

- Dalkeith Road, Wattle Terrace and MacAlister Road will be under traffic management while these works are in progress. Speed and temporary lane restrictions may be required, and signage and traffic management will be in place to advise motorists of changed conditions.
- During the night works, there may be a need to close the Dalkeith Road level crossing at times to ensure the safety of work crews and motorists. While this closure is in place, diversions will be available via Anderson Walk or Clark Road.
- There will be no impact to passenger train services.

Some short-term electricity outages are anticipated for these works, and will be communicated to residents and businesses by SA Power Networks.

Work crews will make every effort to minimise the disturbance to residents and businesses.

Thank you for your patience as we undertake this important project.
