

Adelaide Road, Mount Barker Roundabout Upgrade

Engineering survey activities

The South Australian Government has committed \$40 million as part of the 2023-2024 State Budget to upgrade the roundabout located at the intersection of Adelaide Road, Wellington Road, Flaxley Road, and Alexandrina Road in Mount Barker.

This project has been identified as a priority upgrade within the Mount Barker Infrastructure Deed to support the nearby residential developments occurring within the Mount Barker Urban Growth Area and the broader Mount Barker area.

What to expect

As part of the planning works for the upgrade, engineering survey activities will be undertaken at various locations through and around the intersection.

These survey activities will provide an understanding of the current underground services to help inform the planning and design phase.

Survey activities are expected to occur from **Tuesday, 3 October 2023 to Friday, 13 October 2023, between 9am and 4pm** weather permitting.

To ensure the works can be undertaken safely and efficiently some works will occur at night from Wednesday, 4 October 2023 for approximately three nights, weather permitting. Hours of work will be between 5:00pm and midnight.

The intersection will remain open to traffic at all times, however, there will be reduced speed limits through the work zone. Please take extra care when workers are on site and observe speed limits, lane restrictions and traffic controllers when travelling through the area.

Access to properties will be maintained throughout the works.
