

North East Road and Torrens Valley Road

Investigation Works

We are delivering the Adelaide Hills Productivity and Road Safety Package to upgrade key strategic arterial roads in the region. The road improvements will support economic growth, improve road safety and increase fire resilience. The \$150 million initiative is jointly funded by the Australian Government (80%) and South Australian Government (20%) over five years.

What's happening:

Site investigation works including geotechnical drilling and surveys will be undertaken along North East Road/Torrens Valley Road from Houghton to Gumeracha. These investigations will support planning for potential upgrades along this road.

How this affects you:

To do this work safely, North East Road/Torrens Valley Road will be reduced to a single lane with controllers on site to control the direction of traffic and speed limits in place. Please plan your trips, be cautious around workers, and follow the speed limits and signage.

Access to properties will be maintained for the duration of works, and we will ensure every effort is made to minimise impacts to surrounding properties and roads.

Minor noise disturbances can be expected while works are being undertaken, but we will minimise any disturbance to residents as much as practically possible.
