

# Intersection of Port Wakefield Road, Main North Road and Grand Junction Road, Gepps Cross

## Night Works

We are currently undertaking road resurfacing works at the intersection of Port Wakefield Road, Main North Road and Grand Junction Road. These works will improve the safety and amenity of the road for all users.

### What's happening:

Works are continuing at the intersection of Port Wakefield, Main North Road and Grand Junction Road, Gepps Cross. These works are necessary to ensure the road remains in good condition as wear and tear can cause potholes and uneven surfaces over time.

### How this affects you:

To do this work safely, speed and lane restrictions will remain in place and detours may be required during work hours. Advance notice will be provided via onsite signage. Please follow traffic management directions while works are in progress.

Outside of working hours, speed restrictions will need to remain in place, until completion which is now expected in mid-April.

Pedestrians and cyclists might also need to use a different path during the works. Signs will be in place to show you where to go.

During the works, there might be some noisy disruptions from time to time, but we'll do our best to keep the noise to a minimum. You might also notice some odours, which is normal during asphalt work.

For any traffic management queries during night work hours, please contact the Department's contractor, Boral on 0401 896 784
