

# Flagstaff Road Upgrade Project

## Project Update

The Department for Infrastructure and Transport (the Department) is upgrading Flagstaff Road, between Hyland Avenue and Bonneyview Road. The South Australian government has committed \$32.9 million towards the project, which will improve travel times, capacity and safety for all users.

The upgrade involves the installation of a fourth lane to make it a permanent two-way dual carriageway. It will provide room to overtake slow-moving traffic and allow emergency vehicles to proceed without being held up by other traffic.

Works will shortly begin on the eastern side of Flagstaff Road. To safely facilitate these works, the southbound lane and bike lane on Flagstaff Road, between Hyland Avenue and Bonneyview Road, will form part of the construction zone. These lanes will be closed to traffic during this time. The two remaining lanes will remain open to allow two-way traffic to be maintained on Flagstaff Road (one lane in each direction) between Hyland Avenue and Bonneyview Road.

In order to facilitate these changed traffic arrangements, night works and a road closure of Flagstaff Road, between Hyland Avenue and Bonneyview Road will be required. Once traffic has been switched, there will be further night works and changed traffic conditions (including detours for vehicles, pedestrians, cyclists and buses and the temporary closure of bus stops.)

Please read below for more information and maps.

Some noise disturbance can be expected at times while these works are completed, however the work will be managed to minimise disturbance to nearby residents and businesses, as much as practically possible.

Traffic management and signage will be in place to alert road users to changed traffic conditions. Road users are asked to plan ahead, observe signage, speed limits and the direction of traffic controllers, and to take extra care when travelling through the area.

Access to properties will be maintained under these new traffic conditions, with advance notice provided if there is a need to temporarily restrict driveway access.

The Department appreciates your co-operation and patience while these important works are undertaken.
