Recommendation

It is recommended that the State Planning Commission (the Commission) resolves to:

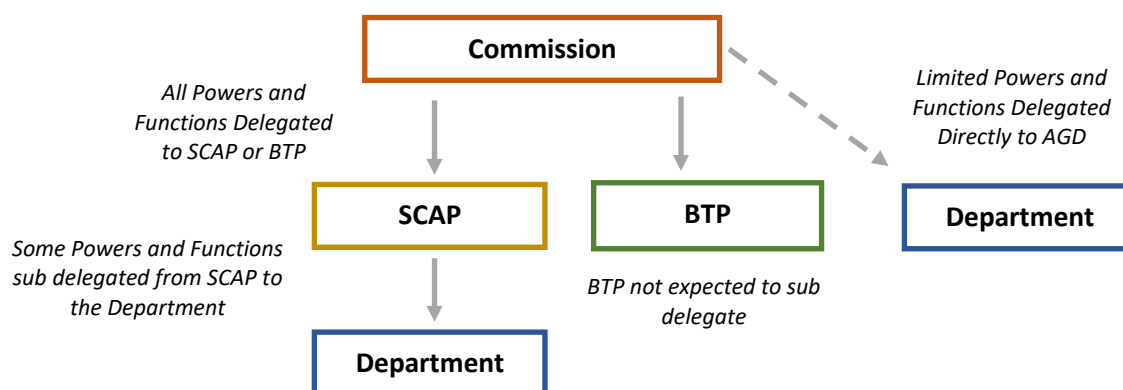

1. Approve the designation of the item as Not Confidential (Release Delayed), with the meeting papers for the item to be released following final adoption of the updated delegations by the Commission and the State Commission Assessment Panel (SCAP).
2. Approve the draft Instrument of Delegation at **Attachment 2**, with the instrument to be effective from the date of signing by the Chair.
3. Authorise the Chair to sign the Instrument of Delegation as approved, including making any minor amendments as required to finalise.

Background

The current Instrument of Delegation from the Commission (as shown in **Attachment 1**) under the *Planning, Development and Infrastructure Act 2016* (the Act) was executed by the Chair of the Commission on 18 March 2021, immediately prior to full implementation of the Planning and Design Code (the Code).

The current arrangements delegate the majority of development assessment functions from the Commission directly to SCAP and the Building Technical Panel (BTP). The Commission's intention was that SCAP would manage its procedural and administrative arrangements with the Attorney-General's Department (the Department) through its Instrument of Further Delegation, as well as its Delegations Policy. As a result, a limited number of powers and functions have been delegated directly to the Department by the Commission, and these primarily relate to policy matters (for example, powers relating to Code Amendments, Practice Directions and Practice Guidelines).

The current structure of the Commission's delegations are as shown in the flowchart below:

Discussion

A review of the Commission's Instrument of Delegation and SCAP's Instrument of Further Delegation has been undertaken by the Department to ensure those instruments remain effective, efficient and fit-for-purpose, as well as to incorporate additional operational improvements which have been identified throughout 2021.

A draft Instrument of Delegation has been included at **Attachment 2** for the Commission's consideration. For ease of reference, an additional comparison version of the Instrument is included at **Attachment 3**, showing the proposed changes.

The changes made to the Instrument to improve administrative efficiency and effectiveness include:

- Update to position titles for executive levels, following organisational restructure within Planning and Land Use Services (PLUS).
- Converted named positions to position levels (for example, Team Leader, Crown and Major Development, converted to PO4, State Assessment directorate). This change is intended to provide increased certainty as well as flexibility for delegates in exercising their delegation, as position classifications are far less subject to change than position titles.

The position levels recommended in the draft Instrument of Delegation generally reflect the same levels held by persons holding the position titles noted in the previous Instrument.

As a result of these changes, additional interpretation provisions have been included on the first two pages of the Instrument, to provide further clarity on position references, business unit and directorate names.

- Additional delegation of the power to receive and respond to consultation from the Minister for Planning and Local Government (the Minister) regarding variations to Ministerial Building Standards under section 80(4), but limited to where the delegate considers the variations to be of a minor operational nature.
- Minor improvements to drafting in Column 2 (description of power and function) and column 4 (limitations) of Schedule 1 of the Instrument of Delegation as required.

Additional changes have been made to reflect various stand-alone delegations of the Commission throughout 2021, to incorporate those delegations into the overarching Instrument. These include:

- As resolved by the Commission at its meeting on 10 June 2021, delegation of the power to receive and respond to consultation on management plans under section 38(2a)(a) of the *National Parks and Wildlife Act 1972*, but limited to responses on operational matters (including regarding consistency with the Code).
- Change to delegations under section 73 of the Act relating to the Code Amendment process, as resolved by the Commission at its meeting on 5 August 2021, including:
 - Additional criteria for limitation of power to provide advice to the Minister on initiation of a Code Amendment, with the power now also being limited to where the Chief Executive of the Department is not the designated entity seeking to initiate the Code Amendment, and the Commission has not otherwise 'called in' the Code Amendment for its decision.
 - Changes to the limitation of the delegation under section 73(6), so that powers relating to preparation of a Code Amendment are limited to where the Commission's initial advice to the Minister regarding the Code Amendment is also given under delegation.
- As resolved by the Commission at its meeting on 16 December 2021, delegation of power to amend the Spatial Information Standard under section 51(1) of the Act to the Surveyor-General, but limited to amendments which are considered as minor or operational in nature.
- Delegation of powers regarding the provision of information and forms for design review schemes under section 121(3) of the Act to the Director, Office for Design and Architecture SA. This power was previously delegated to SCAP, but given this is a Departmental matter, it is more appropriately delegated to PLUS officers.

Next Steps

Following approval of the draft Instrument of Delegation by the Commission, SCAP will consider a draft Instrument of Further Delegation, which will sub-delegate SCAP powers and functions to officers in the Department (as shown in **Attachment 4**).

The changes to the SCAP Instrument of Further Delegation are primarily required for consistency with the Commission's head Instrument. However, the SCAP Instrument of Further Delegation also includes amendments to delegated powers relating to waiver and refund of fees (delegated under section 119(9)(c) of the Act and Regulation 7 of the *Planning, Development and Infrastructure (Fees, Charges and Contributions) Regulations 2019*). These changes are to reflect the Chief Executive's Fees Waiver and Refund Policy 2021, which was recently approved by the Chief Executive and provides guidance to delegates on the consistent treatment of development assessment and related fees.

Both the Instrument of Delegation from the Commission and the Instrument of Further Delegation from SCAP will be effective from the date of signing by the Chair of the Commission and Presiding Member of SCAP (respectively).

The Instrument of Delegation will be reviewed by the Department on an annual basis, or earlier (if appropriate or required in response to legislative change or other urgent operational matters).
