

Nottage Terrace and North East Road Intersection Upgrade

Project Update

The Australian and South Australian governments are jointly funding (50:50) the \$6 million Nottage Terrace and North East Road Intersection Upgrade. The upgrade is expected to support approximately 10 full-time equivalent jobs over the life of the project.

North East Road is a major commuter corridor providing an important connection between the CBD and Adelaide's north-eastern suburbs. This intersection upgrade will increase the capacity for vehicles turning left onto North East Road from Nottage Terrace, creating an overall improvement of traffic flow for vehicles travelling between Main North Road and North East Road along Nottage Terrace.

The Department for Infrastructure and Transport sought feedback on the proposed concept design between February and July 2022. Engagement activities included an online survey, virtual online meetings, listening posts and one on one meetings with residents along Nottage Terrace.

The consistent feedback received included the importance of maintaining on-street parking along Nottage Terrace where possible and the request for noise mitigation measures as part of the project. Residents also expressed a preference for the right turn from Stephen Terrace to be retained as part of the upgrade.

All feedback received from the community was reviewed and considered by the project team and the concept design has been updated to:

- retain 10 parking spaces east of Corbin Road west of 32 Nottage Terrace; and
- retain the right turn from Stephen Terrace into North East Road.

The intersection performance, including queues and crash data, will be monitored post completion to assess whether any further changes to parking along Nottage Terrace are required.

A copy of the updated concept design is attached overleaf. It is also available on the project website www.dit.sa.gov.au/nottage_northeast.

Community and stakeholder engagement is an important part of the planning and design process, and we thank those members of the community who provided valuable feedback into the design process. Construction on the new intersection is expected to commence in the coming weeks with completion expected late 2022, weather permitting.

If you have any questions, or wish to register for future project updates,

Nottage Terrace and North East Road Intersection Upgrade

Removal of existing painted median and parking lane on Nottage Terrace east of 32 Nottage Terrace.

Road realignment on Nottage Terrace to provide one through lane, one shared through lane/left turn lane and one left turn lane.

Retaining 10 parking spaces east of Corbin Road, west of 32 Nottage Terrace.

Road widening on Nottage Terrace with the installation of dual left turn lanes onto North East Road travelling northbound.

Indented bicycle hook turn.

Right turn from Stephen Terrace into North East Road retained.

- Other proposed treatments include:
- improved bicycle facilities;
 - new and upgraded traffic signals, road lighting and line marking;
 - new kerb and gutter where road widening is occurring; and
 - upgraded pedestrian crossings, including new pedestrian crossing lights and ramps.
