

Marion Road and Sir Donald Bradman Drive Intersection Upgrade

Site investigation activities

The Australian and South Australian governments have committed \$85 million (50:50) in funding towards an upgrade of the intersection of Marion Road and Sir Donald Bradman Drive.

We look forward to engaging with the community in the coming months about this project. This will be an opportunity to share further information about the key insights learnt through the planning work undertaken so far, as well as seek important feedback to help inform the detailed design process.

Upcoming site investigation activities

Service locating works are being undertaken at the intersection of Marion Road and Sir Donald Bradman Drive. Night works are required to ensure the works can be undertaken safely and efficiently.

Night works will be undertaken at various locations through and around the intersection as required, from **Monday, 24 October for approximately two weeks. Hours of work are between 8pm and 6am, Monday to Friday, weather permitting.**

These works involve service locating equipment to detect any underground services and potholing works.

Some noise disturbance can be expected at times while these works are completed, however the work will be managed to minimise disturbance to nearby residents and businesses as much as practically possible.

The intersection will remain open to traffic at all times. Speed and lane restrictions will be in place in the vicinity of the works. Please take extra care when workers are on site and observe speed limits, lane restrictions and traffic controllers when travelling through the area.

Pedestrians and cyclists are advised to take care when travelling through the area. For safety reasons there may be some restricted access. Where required, signage will be in place to direct pedestrians and cyclists to alternative access and/or detours.

Public transport services will remain operational however, bus stops may require temporary relocation. Advance notice of any temporary changes will be provided at the bus stops and on the Adelaide Metro website www.adelaidemetro.com.au

The Department appreciates your cooperation whilst these important works are undertaken.
