

Main North Road and Nottage Terrace Intersection Upgrade

Construction Update

The Department for Infrastructure and Transport (the Department) is upgrading the intersection of Main North Road and Nottage Terrace to improve travel times, connectivity, capacity and safety for all users. The \$19 million project is jointly funded (50:50) by the South Australian and Australian governments.

Service relocation and early investigation works to facilitate the upgrade are now complete and major works on the intersection are underway. Project completion is expected in late 2021, weather permitting.

Works will be undertaken during the day Monday to Saturday, between 7am and 6pm, with night works also required, to minimise impacts and ensure the works can be completed safely and efficiently. Advance notice of night works will be provided.

The intersection will remain open during these works. Speed restrictions will apply and lane restrictions will be in place, when required, to maintain the safety of road users and workers.

Road users are asked to use extra caution when workers are on site, follow the directions of traffic controllers and observe traffic signage and speed restrictions when travelling through the area.

Access for properties will be maintained throughout the works.

Public transport services will remain operational however, bus stops may require temporary relocation. Advance notice of any temporary changes will be provided at the bus stops and on the Adelaide Metro website www.adelaidemetro.com.au.

Pedestrians and cyclists are advised to take care when travelling through the area. For safety reasons there may be a need to restrict some access. Where required, signage will be in place to direct pedestrians and cyclists to alternative access and/or detours.

Every effort will be made to minimise impacts to surrounding properties and road users, as much as practically possible. Further information will be provided as works progress.

The Department appreciates your patience and cooperation whilst these important works are undertaken.
