

# Horrocks Highway, Wild Dog Creek – Culvert upgrade

## Work update

### We are improving safety and freight efficiency on the Horrocks Highway

The Horrocks Highway culvert replacement project is jointly funded (80:20) by the Australian and South Australian governments as part of the Bridges Renewal Program.

### What's happening

We are upgrading an existing culvert on the Horrocks Highway, at Wild Dog Creek approximately 1km south of Murray Town. This upgrade will improve flood resilience, safety, and heavy vehicle capacity along this important freight corridor.

Early works to construct a temporary access track immediately adjacent to Horrocks Highway are almost complete. Following completion of the temporary access track in mid-May, major works to upgrade the culvert will commence.

### How this affects you

**From mid-May 2025 to early October 2025, traffic will be diverted around the works area via the two-way temporary access track.** The Horrocks Highway will remain open to two-way traffic for the duration of these works, under speed restrictions.

To keep everyone safe, speed restrictions will be in place throughout the work area, including outside of work hours as required. Please follow onsite signage and traffic controller directions while work is underway.

On completion of the culvert upgrade in early October 2025 all traffic restrictions will be lifted. Final asphalt sealing and line-marking will take place in early 2026 when weather conditions permit.

#### When

Mid-May 2025 until early October 2025, weather permitting

#### Hours of work

Monday to Friday

7am until 5pm

Some weekend work may be required

#### Where

Horrocks Highway, approximately 1km south of Murray Town
