

# Port Wakefield Road Overpass and Highway Duplication Project

## Notification of site investigation works

As part of the Port Wakefield Road Overpass and Highway Duplication Project, the Department of Planning, Transport and Infrastructure (DPTI) advises that early site investigation works are being undertaken in various locations around the Port Wakefield Township and the Port Wakefield Highway, between Shirke Road, and the intersection of the Augusta Highway and Copper Coast Highway.

### Timing of works:

You may have noticed works commencing within the Township in recent days, which will continue intermittently until July 2019, weather permitting.

Some of the required works will have an impact on traffic flow, and some traffic restrictions may be required.

### Investigation activities:

Works being undertaken will include:

- Location of existing in-ground utility services
- Geotechnical and pavement investigations
- Noise assessments
- Flora and fauna assessments
- Aboriginal and non-Aboriginal Heritage surveys

### What to expect:

Minor temporary traffic restrictions may apply in the vicinity of the works at various times. Signage will be in place to alert road users to any changes to traffic conditions, and motorists are advised to take care when driving through the area.

It is anticipated that the majority of works will be performed during the day, however, some night works may be required. In most locations, works are not expected to take longer than 24 hours.

During the works you may notice the increased presence of machinery as well as ground personnel. Some minor noise disturbance can be expected at times as you may hear sounds from the equipment used and vehicle movements. This is required for the safety of workers and the public.

Works will be managed to minimise disruption to all road users, businesses and the local community, as much as practically possible.
