

North-South Corridor

Darlington Upgrade Project

Sturt Road bridge beam installation Weekend traffic restrictions 25-27 May 2018

Major changes to traffic conditions will be in place through and around the intersection of Sturt Road and Main South Road, Bedford Park from 8pm Friday 25 May until 8pm Sunday 27 May 2018, for the Darlington Upgrade Project.

The changes will enable the installation of beams for the new Sturt Road bridge.

Traffic Management

- Lane closures will be in place on the eastbound and westbound approaches of Sturt Road.
- The eastbound carriageway of Sturt Road will be closed through the intersection with Main South Road, with eastbound traffic redirected onto the westbound carriageway. Traffic controllers will be on-site to assist with this movement.
- Southbound traffic on Main South Road through the work site will be reduced to two lanes as required during the weekend.
- All traffic movements will be maintained through the intersection.
- Emergency services access and bus access will be maintained at all times

Please see the map overleaf for further details. Two large cranes, smaller support cranes, trucks and lighting towers will be used.

The beams will be transported along Main South Road on heavy haulage transporters with specialist police escorts. This will result in short-term stoppages of southbound Main South Road traffic as required.

Due to the length and weight of the beams, their installation is dependent on favourable wind speeds. If wind speeds exceed the allowable limit, the works will not be able to proceed as planned and will be rescheduled. We will provide you with advice on the rescheduled date if this occurs.

Every effort will be made to minimise noise and disruption while these works are undertaken and we appreciate your patience and understanding. Please plan ahead, allow extra travel time, take extra care when workers are on site and observe speed and lane restrictions when travelling through the area.

Please note that minor traffic restrictions will be in place through the intersection from 8pm Friday 1 June until 8pm Sunday 3 June for the installation of remaining bridge beams.

If you have any questions please call 1300 759 334 or email: enquiries@gatewaysouth.com.au.

Kind Regards,
Darlington Upgrade Project team
