

Horrocks Highway Upgrades

Geddes Bridge (south of Wirrabara)

The Department for Infrastructure and Transport (the Department) is continuing to undertake safety improvements on the Horrocks Highway, including upgrading Geddes Bridge, approximately 2.5km south of Wirrabara. Works will include bridge strengthening and will improve the safety and reliability of freight routes.

This work is being delivered through the \$105 million Horrocks Highway Corridor Upgrade, which forms part of the South Australian Rural Roads Safety Package, jointly funded (80:20) by the Australian and South Australian governments.

Works are scheduled to commence on **Monday 14 August 2023, with project completion expected in mid-October 2023 (weather permitting).**

What to expect

Works will be undertaken between **7am and 6pm, Monday to Friday**. Some weekend work may be required.

To safely facilitate these works, traffic will be reduced to a single lane with temporary traffic signals in place to control the direction of traffic on Horrocks Highway. Speed restrictions will also be in place throughout the work area for the duration of the project (including outside of work hours).

Road users are asked to please plan ahead, expect delays, allow extra travel time, and take extra care when workers are on site. Observe speed limits, lane restrictions and traffic controllers when travelling through the area.

Access for emergency service vehicles will be maintained at all times during the works. Access to properties will be maintained throughout the works wherever possible, with advance notice provided if there is a need to temporarily restrict driveway access.

The Department appreciates your co-operation and patience while these important works are undertaken.

To keep up to date as these works progress, we encourage the community to register for email updates. Please visit the project website www.dit.sa.gov.au/horrocks to register.
