

Road Safety Improvement Works

Long Valley Road – north of Long Valley Cottages Road to south of Mine Flat Road

The Department for Infrastructure and Transport (the Department) is continuing to undertake safety improvements on Long Valley Road for all road users between Wistow and Strathalbyn. This project forms part of the \$150 million Adelaide Hills Productivity and Road Safety Package, which is jointly funded (80:20) by the Australian and South Australian governments.

Works will include construction of a new southbound overtaking lane approximately 1.5 kilometres north of Long Valley Cottages Road to south of Mine Flat Road.

Works will include:

- construction of two new U-turn locations;
- installation of centre wire median safety barrier;
- resurfacing and pavement rehabilitation;
- wider lanes and sealed shoulders; and
- upgraded safety barrier and signage.

Other upgrades include upgraded drainage, kerb and gutter, wide centre line and audio tactile line marking, vegetation management and removal and relocation of services. Please see concept map over the page.

Works are expected to commence on Tuesday, 16 May 2023 and be completed in mid-2024, weather permitting. Works will be undertaken Monday to Friday, from 7am to 5pm and Saturdays from 7am to 2pm, weather permitting. Some additional weekend works may be required with advance notice to be provided.

Works may need to be temporarily suspended over winter to ensure suitable weather conditions to lay this type of pavement. Advance notice will be provided if this is required.

To safely undertake these works, speed and lane restrictions will be in place during the works. Please plan ahead, allow extra travel time and take care when workers are on site. Observe speed limits, lane restrictions and traffic controllers when travelling through the area. Outside of working hours speed restrictions will remain in place subject to onsite conditions.

Access to properties will be maintained throughout the works wherever possible, with advance notice provided if there is a need to temporarily restrict driveway access.

Some noise disturbance can be expected at times while these works are completed, however the work will be managed to minimise disturbance to nearby residents and businesses as much as practically possible.

You may also notice some odour which is common when asphaltting works are underway. Access for public transport and emergency services will be maintained at all times.

For further information about the project or to register to receive project updates please visit dit.sa.gov.au/LongValley, call 1300 794 880 or email DIT.Engagement@sa.gov.au

The Department appreciates your cooperation and patience while these important works are undertaken.
