

Tour Down Under 2024

Preparation night works – Adelaide Hills

We are undertaking preparation works for the 2024 Tour Down Under race, in addition to maintenance works currently underway on Strathalbyn Road. Works will involve general maintenance activities to ensure the safety and quality of each race circuit.

What's happening:

Works will involve general maintenance activities such as asphalt patching, removal of obstacles, track sweeping and cleaning.

How this affects you:

To do this work safely, we'll have speed and lane restrictions in work areas, with local access available. Please plan your trips, be cautious around workers, and follow the speed limits and signs.

You will still be able to access businesses and homes. If we need to limit access, we'll let property owners know ahead of time.

Pedestrians and cyclists, please be cautious when passing through work zones. Some areas might have limited access for safety reasons. We'll put up signs to guide you to other routes if needed.

During the works, there might be some noisy disruptions from time to time, but we'll do our best to keep the noise to a minimum. You might also notice some odours, which is normal during asphalt work.
