

Main South Road Duplication Project

Site Investigation Works

The Department for Infrastructure and Transport (the Department) is continuing site investigation works for the Main South Road Duplication Project.

Site investigations are required to better understand the existing conditions. These works will take place intermittently over the coming months. Works will include:

- Locating underground services.
- Geotechnical investigations.
- Environmental investigations including flora and fauna surveys and noise monitoring.
- Aboriginal and cultural heritage assessments.

The investigation sites do not necessarily correspond to areas which will be impacted by the project in the final design. The locations have been carefully chosen to minimise disruption to the community and for the best overall understanding of local conditions.

In order to minimise the impact to road users, these investigation works will be undertaken at night on the intersection of Main South Road, Maslin Beach Road and Tatchilla Road from **Tuesday, 15 June to Wednesday, 16 June 2021**, weather permitting. Hours of work are between 7pm and 5am.

All roads will remain open. To safely undertake these works, some localised speed and lane restrictions will be in place during the works. Road users are advised to take extra care when workers are on site, and observe signage when travelling through the area.

Some noise can be expected at times while these works are completed, however the work will be managed to minimise disturbance to nearby residents and businesses, as much as practically possible.

Access to properties will be maintained throughout the works wherever possible, with advance notice provided if there is a need to temporarily restrict driveway access.

Pedestrian access will not be affected during these works. There is also no change to public transport services.

The Department appreciates your patience and understanding while these works are undertaken.
