

Gawler Rail Electrification Project

Pym Street, Prospect, level crossing - temporary closure

As part of the Gawler Rail Electrification Project, the Department for Infrastructure and Transport (the Department) advises that the Pym Street level crossing in Prospect will be closed for day and night works, with detours in place for pedestrians and motorists.

Location: Pym Street level crossing, between Exeter Terrace and Devonport Terrace, Prospect (refer to map).

When: from 6am Saturday, 3 October until 6pm Monday, 5 October, weather permitting. See overleaf for crossing closure details.

Level crossing day and overnight closures:

- Pym Street level crossing will be closed from 6am Saturday, 3 October until 6pm Monday, 5 October.

Traffic management: detours will be in place at the Pym Street level crossing and speed and lane restrictions will apply in the vicinity of the works. Access to residential properties and businesses will be maintained at all times. Signage and traffic management measures will be in place to advise pedestrians and motorists of changed conditions. Please follow detour signage and traffic crew directions.

What you can expect:

- Construction plant equipment including an excavator, crane, lighting towers, and other construction vehicles.
- Noise from construction machinery.
- Project personnel operating within the rail corridor.

Every effort will be made to minimise noise and disruption to nearby residents and businesses during the works, as much as practically possible.

The Department thanks you for your patience while works are undertaken on this important project.

The Australian and South Australian Government funded project will deliver faster, safer and more reliable rail services.
