

# Grange Road, Holbrooks Road and East Avenue Intersection Upgrade

## Project update

The Department for Infrastructure and Transport is upgrading the intersection of Grange Road, Holbrooks Road and East Avenue to relieve congestion and improve safety and connectivity for all road users at this location.

The upgrade will remove a staggered intersection and create a direct connection across Grange Road between Holbrooks Road and East Avenue. This project, being delivered as part of an \$850 million suite of projects is designed to ensure Adelaide's road network functions efficiently during construction of the River Torrens to Darlington (T2D) Project, and once it has been completed.

### What is planned

These roads provide vital links for community to local schools, work and recreation as well as the broader Adelaide road network. **Construction of a new, four-way intersection at this location**, will relieve congestion, improve connectivity and network capacity, improving safety for all road users, pedestrians and cyclists.

The intersection upgrade will also include:

- two dedicated right turn lanes from Grange Road onto Holbrooks Road travelling south;
- two dedicated right turn lanes from East Avenue onto Grange Road travelling west;
- two dedicated right hand turn lanes from Holbrooks Road onto Grange Road travelling east;
- a dedicated left turn lane from Grange Road onto East Avenue travelling north;
- a dedicated left turn slip lane from East Avenue onto Grange Road travelling east; and
- a dedicated left turn slip lane from Holbrooks Road onto Grange Road travelling west.

Please see the concept design over the page.

### Pedestrian and cyclists

The upgrade includes improvements to pedestrian safety by installing four new pedestrian crossings with two refuge crossing points.

Cycling safety will also be improved via the introduction of dedicated intersection entry and exit cycle lanes.

### Public Transport

The upgrade will improve access for bus services around the intersection.

### Project timing

Site preparation works, including site clearing activities will be undertaken over the coming months. Other early works including surveys and services activities are anticipated to commence in early 2024.

Major construction is scheduled to commence in late 2024, with the intersection open to traffic in late 2025, weather permitting.

### Community engagement

We are committed to working with local businesses and residents to ensure you are kept well informed about the project and construction impacts as much as possible.

### Project information drop in sessions

We invite you to come along to one of the drop in community information sessions to meet the project team, ask them questions and see what's planned.

### Location

Allenby Gardens Primary School,  
33 Barham Street, Allenby Gardens:

- Thursday, 19 October 2023, drop by anytime between 5.30pm – 7pm
- Saturday, 21 October 2023, drop by anytime between 11.30pm – 1.30pm

### Further information

If you would like to register to receive project updates, register to attend the information sessions, have any questions or to provide feedback, please either:

- visit [DIT.sa.gov.au/ghe](https://dit.sa.gov.au/ghe)
- email [DIT.Engagement@sa.gov.au](mailto:DIT.Engagement@sa.gov.au)
- telephone 1300 794880
- scan the QR code.

Kind regards,

**Grange Road, Holbrooks Road and East Avenue Intersection Upgrade project engagement team**
