

# James Congdon and Sir Donald Bradman Drives upgrade

## Early Works Notice

We are planning to upgrade this intersection by introducing right turn lanes from James Congdon Drive into Sir Donald Bradman Drive (city-bound). This will improve network connectivity and options for motorists to access the CBD.

This project, being delivered as part of an \$850 million suite of projects is designed to ensure Adelaide's road network functions efficiently during construction of the River Torrens to Darlington (T2D) Project, and once it has been completed.

### What's happening:

To assist with the early project planning, ground investigation works will be undertaken on and around the intersection.

### How this affects you:

Works will occur between Monday, 27 November 2023 to Wednesday, 6 December 2023. Day works hours are 9am to 3pm. Night works will occur between Monday, 4 December 2023 to Wednesday, 6 December 2023 7pm to 5am.

To do this work safely, temporary lane and speed restrictions will be in place.

Please plan your trips, be cautious around workers and observe signage.

Some noise disturbance can be expected at times while these works are completed; however, the work will be managed to minimise disturbance to nearby residents and businesses as much as practically possible.

We thank you for your patience during these important works.
